NY EXCISE TAX — MONTHLY RECONCILIATION BY CATEGORY

The NY distributor-level excise tax is assessed per milligram of THC and is embedded in your COGS via distributor invoices. This table reconciles estimated excise exposure by category against unit sales and Metrc records. “REVIEW” indicates a variance between estimated excise and invoice records.

CATEGORY	UNITS SOLD	AVG THC / UNIT	RATE	EST. EXCISE	% OF COGS	STATUS
Flower	1,624	240 mg	\$0.005/mg	\$1,948	3.1%	Reconciled
Pre-Rolls	447	200 mg	\$0.005/mg	\$447	3.2%	Reconciled
Concentrates	193	850 mg	\$0.025/mg	\$4,098	18.4%	Reconciled
Edibles	188	100 mg	\$0.030/mg	\$564	5.1%	REVIEW
Beverages	47	10 mg	\$0.030/mg	\$14	0.3%	Reconciled
TOTAL	—	—	—	\$7,071	—	—

Edibles category flagged for review. Estimated excise of \$564 does not reconcile with the distributor invoice received May 12. Variance may be a unit-count discrepancy or incorrect THC potency on the invoice. Pull the COA and recount Metrc transfer records before closing the month. Unresolved variances are audit exposure.

Retail tax is not your revenue. \$23,712 per month flows through your register on behalf of the state. Late remittance triggers a 10% penalty plus interest — and is a license compliance violation reportable to OCM. Set a calendar reminder for the 15th of each month.

Illustrative synthetic data. Excise figures are estimated based on unit sales × avg THC content per category — actual excise is determined by distributor invoices and embedded in COGS. NY excise rates per NYS Cannabis Law §492-b (2023). Retail tax: 9% NYS + 4% NYC per NYC Admin. Code §11-2102. METRC SEED-TO-SALE INTEGRITY CHECK

New York’s OCM requires real-time Metrc reporting for all transfers, sales, and disposal events. A reconciliation rate below 100% indicates transfers with missing RFID tag confirmation. OCM can assess fines up to \$10,000/day for unresolved Metrc gaps.

47 TOTAL TRANSFERS LOGGED	2 MISSING RFID CONFIRMATION	95.7% RECONCILIATION RATE
------------------------------	--------------------------------	------------------------------

2 transfers are missing RFID tag confirmation. These must be corrected in Metrc within 5 business days of an OCM notice. Proactively logging a correction now — before an inspector flags it — is treated as good-faith compliance. Contact your Metrc account rep or use the Metrc corrections portal.

Disposal events this month: **4 events logged** (expired + damaged product). Variance events: **1 under review** — document the resolution before month close.
